STEEL HB

BLACK TUBES & PIPES

Technical Specifications

Production Standard: EN 10219

Dimension for tubes : 20x20mm up to 200x200mm

Diameters for pipes : 19mm up to 89mm

Diameters : 1.20mm-12.00mm

Grades : S235JR, S275, S355

Lenght: 2000mm- 12000mm

Packaging weight : 1-2 Tons

GALVANIZED TUBES & PIPES (Sendzimir)

Technical Specifications

Production Standard: EN 10219

Lenght: 2000mm- 12000mm

Diameters for tubes: 20x20 up to 100x100mm

Diameters for pipes : 19mm up to 89mm

Thickness : 1.20mm-3.00mm

Grade for pre-galvanized tubes : DX51D Z100- Z140 - Z275

Packaging weight : 1-2 Tons

I BEAMS (IPE, IPEA, IPEAA)

Technical Specifications

Grade : S235JR, S275JR, S355JR-J2

Diameter :80 up to 160

Lenght : 6000mm-12000mm

Package weight : 1-3 tons

EQUAL ANGLES

Technical Specifications

Grade : S235JR, S275JR, S355JR-J2

Dimensions :20x20mm-150x150mm

Lenght : 6.000mm-12.000mm

Package weight : 2-3tons

Production Standard : EN10056

PRODUCTS

STEEL HB

SQUARE BAR

Technical Specifications

Grade : S235JR, S275JR, S355JR
Square bar diameter :10X10mm -100X100mm
Lenght : 6000mm-12000mm
Package weight : 2-4tons

ROUND BAR

Technical Specifications

Grade : S235JR, S275JR, S355JR
Round bar diameter :10 -80mm
Lenght : 6000mm-12000mm
Package weight : 2-4tons

FLAT BAR

Technical Specifications

Grade : S235JR, S275JR, S355
Dimensions :12mm-100mm
Thickness : 2-10mm
Lenght : 6000mm-12000mm
Package weight : 2-3tons
Production Standard : EN10058

WIRE ROD

Technical Specifications

Diameter : 5,5mm -8.0mm
Outer diameter of coil : 1150/1250 mm
Inner diameter of coil : 850 mm
Height: 1400 - 1850 mm
Weight of coil : min. 1900 - max. 3200 kg

PRODUCTS

STEEL HB

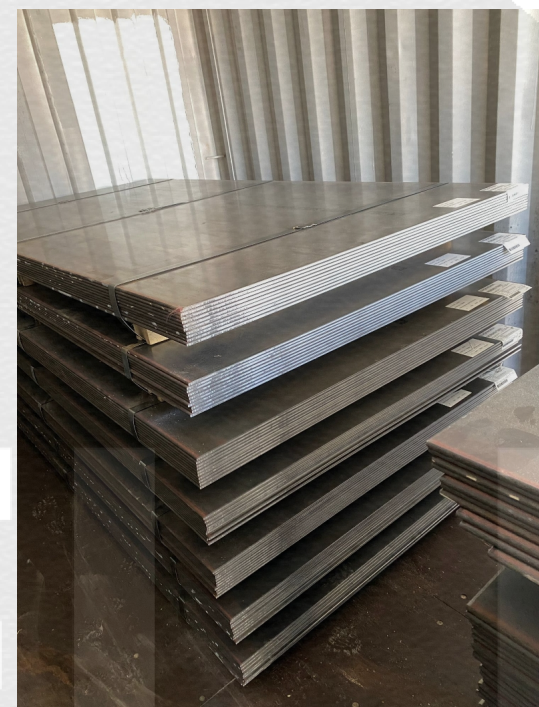

OILED ANNEALED WIRE

Technical Specifications

Thickness : 1.80 - 4.00mm
Tensile Strength : 300 - 400 N/mm²
Coil Weights : 40 - 50 kg or 300 - 700 kg
Rosette Coils
Coil Int/Ext Dia : 200 - 350mm (Small Coils)
450 - 800mm (Rosette Coils)
Raw Material : SAE 1006 - 1008

HOT ROLLED / COLD ROLLED COILS

Technical Specifications

Hot Rolled Production Types : S235JR, S275JR, S355JR
Hot Rolled Diameters : 1.30mm-20.00mm
Hot Rolled Production Standard : EN 10025
Cold Rolled Types : DC01
Cold Rolled Diameters : 0,40mm- 1.20mm
Coil Weights : 5-9 tons
Cold Rolled Production Standard : EN 10130

ALUZINC & GALVANIZED COILS (and plates)

Technical Specifications

Galvanized Grade : DX51D , DX52D
Coating Thickness : Z100, Z140, Z275
Diameters : 0,40mm- 3.00mm
Coil width : 800- 1250mm
Coils weight: 5-7tons
Plates Package weight : 2 tons
Production Standard : EN 10346-09

COLD DRAWN WIRE

Technical Specifications

Diameter Range : 1.20 - 8.00mm
Tensile Strength : 500 - 1100 N/mm²
Coil Weights : 50 - 1000 kg (1.20 - 8.00mm)
Coil Int/Ext Dia : 200 - 400 MM Small Coils
450 - 800 MM Rosette Coil
500 - 700 MM Spool Type Coil
550 - 950 MM Spool Type Coil

PRODUCTS

STEEL HB

HOT DIP GALVANIZED WIRES

Technical Specifications

Diameter Range : 1.50 – 10.00mm

Tensile Strength : 400 – 1800 N/mm²

Weight of coil : 500-800kg

Zinc Coating : 30 – 90 gr/m² (1.50 – 10.00mm)

Coil Int/Ext Dia : 450 - 800 mm (Rosette Coils)

Production Standard : EN 10244-2
